# Agenda - Morning

Time	Topic	Presenter(s)
9:30 am	Welcome and Introductions	Stacy Miller, FDOT, Chair
9:40 am	Partner Roundtable	Group Discussion
10:40 am	Partner and Public Involvement Update	Becky Marsey, FDOT
11:15 am	SHSP Update	Lora Hollingsworth, FDOT
11:30 am	Break for lunch	

**LUNCH BREAK**  
**11:30 AM – 1:30 PM**

# Agenda - Afternoon

Time	Topic	Presenter(s)
1:30 pm	Roll Call	Stacy Miller, FDOT
1:35 pm	Review FTP Policy Element Outline, Goals, Objectives, and Strategies Framework	John Kaliski, Cambridge Systematics
2:20 pm	Review FTP Objectives and Draft Progress Indicators	John Kaliski, Cambridge Systematics
2:30 pm	Draft Progress Indicators Discussion	Group Activity
2:55 pm	Review FTP Charge & 2021 Work Plan	Alison Stettner, FDOT
3:05 pm	Public Comment	Stacy Miller, FDOT
3:20 pm	Next Steps	Becky Marsey, FDOT
3:30 pm	Adjourn	

A graphic on the left side of the slide consisting of several nested, right-pointing chevrons. The chevrons are formed by teal-colored lines of varying thicknesses on a white background, creating a sense of depth and movement towards the right.

# Partner Roundtable

# Partner and Public Involvement Update

# Targeted Outreach Approach

Regional  
Workshops

Targeted  
Outreach

# Agriculture

- Organizations Briefed
  - Florida Fruits and Vegetables Association
  - Florida Farm Bureau
- Summary of comments
  - Travel and tourism traffic on primary and secondary roads hinders getting crops to the processing plant timely
  - Weight limits also hinder this delivery, waivers are needed
  - Perishability and value of crops are high and need timely delivery to the processing plant

# Trails

- Organization Briefed
  - Miami-Dade Trail Alliance
- Summary of Comments
  - Land development patterns make it hard to create connections
  - Partnerships help close the gaps
  - Separated facilities are a priority (i.e., bike lanes)
  - Trail safety at crossings should continue to be enhanced
  - More funding is needed

# Health

- Organizations Briefed
  - Florida County Health Departments
  - Florida Department of Health
- Summary of Comments
  - Affordable and reliable transportation a barrier to many trying to access healthcare, healthy food, employment, and other needs
  - Layout of most public transportation systems is not feasible for those who really need to use it
  - Need better planning for other personal modes of transportation (e-scooters, bicycles, etc.)
  - Partnering with FDOT safety coalitions could help with education and messaging

# Transportation Disadvantaged

- Organizations Briefed

- Commission for the Transportation Disadvantaged
- The Able Trust
- Department of Education, Division of Vocational Rehabilitation and the Division of Blind Services
- Agency for Persons with Disabilities
- Department of Children and Families, Council on Homelessness
- Florida Housing Finance Corporation
- Florida Supportive Housing Coalition
- Florida Association for Community Action
- Florida Nonprofit Alliance
- United Way

# Transportation Disadvantaged cont.

- Summary of Comments

- Many clients have employment but face challenges getting to their jobs due to time, delays, reliability, circuitous routes
- Transportation system should adapt to the needs of all users, not the users adapting to the system
- Limited mobility options and providers for transportation disadvantaged
- Access to funding to make changes happen, complexity of services
- Education on the options that are available is a challenge
- Many cannot enjoy leisure activities because parks and other areas are not accessible by wheelchairs, etc., often unsafe

# Transportation Disadvantaged cont.

- Summary of Comments

- Traveling across county lines on public transportation
- Lack of public transportation in rural areas
- Need more exploration on ride sharing services as paratransit options
- Lack of drivers on public paratransit often requires a 2 hour wait to be picked up, time of the disabled should be valued too
- More attentive to technology solutions – overgeneralization that technology solves everything
- Looking forward to advancements in AV which could open many doors for the transportation disadvantaged

# Partner and Public Outreach Update

## Briefings

	Total Briefings	Total Attendees
Central Office	80	5,366
District Offices	142	4,670
Total	222	10,036

## Social Media

	Impressions
February post	27,000
August post	12,000
Total	39,000

## Survey Responses

	Total Responses
Values and Preferences	1,662
Technology	92
Resilience	68
State and Interregional	41
Regional and Local	13
Total	1,876

# Update on Statewide Outreach Activities

## Upcoming Events

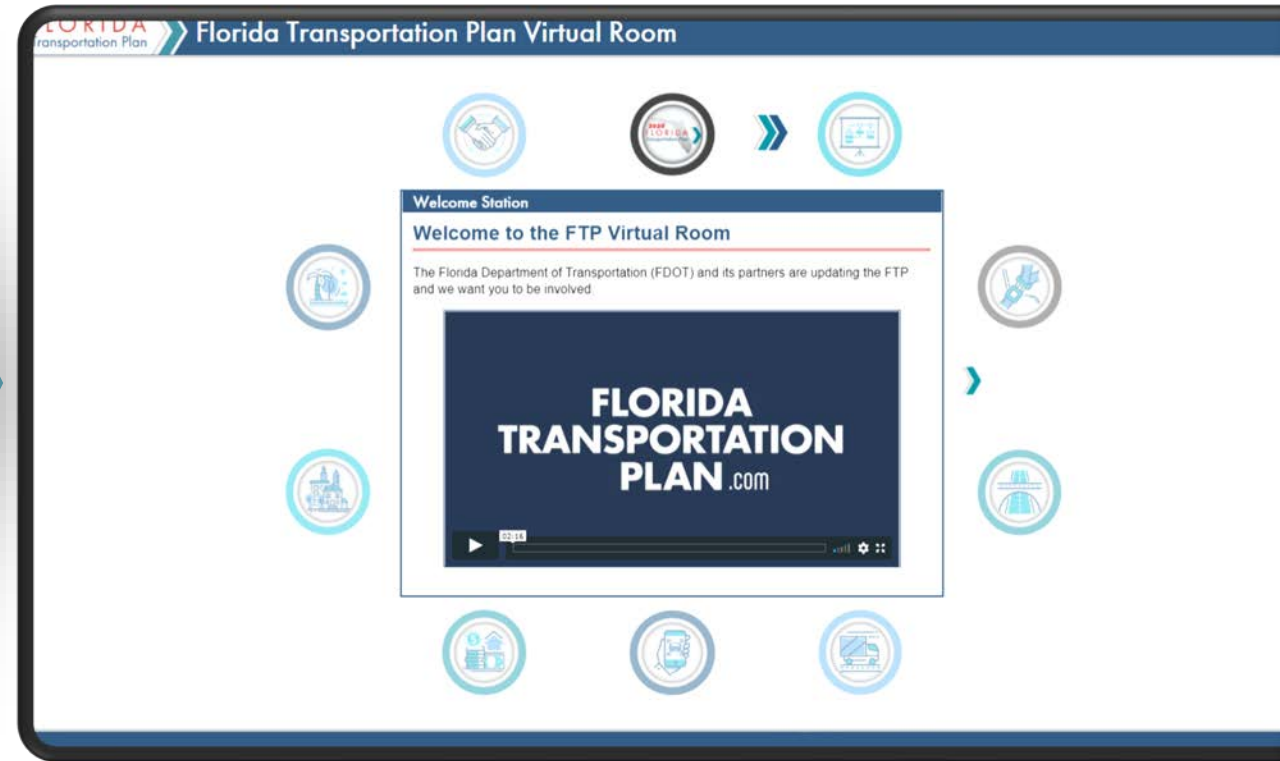

Date	Group/Organization
Fridays in October	TransPlex web series
October 5	Launch of Virtual Room
October 5	Florida Public Transportation Association
October 13-29	Continuing Aviation System Plan meetings
October 14	Florida Rural Economic Development Association
October 15	AARP
October 15	Florida Defense Support Task Force
October 23	Florida League of Cities, Transportation Policy Committee
October 29	Florida Transportation Commission
Mid-November thru December	30-Public Comment period for Draft Policy Element

# FTP Virtual Room

- Walk through the seven goal stations to provide your input on the draft strategies and share your ideas for reaching our goals.
- No specific time, always open!
- Launching October 5

# SHSP Update

# What is the Strategic Highway Safety Plan (SHSP)?

- Plan for ALL of Florida focused on highway safety
- Aligns with and provides direction to other state plans
  - Including FTP, Highway Safety Improvement Program (HSIP), Highway Safety Plan (HSP)
- Affirms the FTP Vision of ZERO transportation fatalities and serious injuries

# 2020-2021 SHSP Process

# Review FTP Policy Element Outline, Goals, Objectives, and Strategies Framework

# FTP Goals, Objectives, Strategies, and Performance Indicators

# FTP Vision Element

## INTRODUCTION > OUR TRANSPORTATION FUTURE

From the early days of trains and automobiles to modern land, air, sea, and space travel, Floridians have long valued innovations in transportation. As we look to the future of transportation in Florida, we imagine new and better ways to move people and goods. Our transportation preferences are spurred by our desires to be connected to our jobs, our friends and family, and the services we need and our desires for safe, convenient, and affordable choices to do so.

Dramatic leaps in connectivity, rapidly changing technologies, an explosion of data, and new risks and disruptions set the stage for transformations in transportation. Regardless of how we make the journey from now to our future, we are steadfast in our vision for a safe, secure, agile,

tion that  
future.  
ologies and

## INTRODUCTION > OUR TRANSPORTATION FUTURE

Through this FTP update, we are embracing a vision of how our transportation system meets the needs of our residents, visitors, and businesses. This vision is about **seven goals for Florida's transportation future**.

VISION ELEMENT

1

SAFETY AND SECURITY FOR  
RESIDENTS, VISITORS AND BUSINESSES

# Draft FTP Policy Element Outline

- **Setting the Stage** – recap vision and goals, and introduce key challenges and opportunities
- **Building the Plan** – document role of Steering Committee, public input, alignment with other plans, review of trends and performance, etc.
- **Measuring Progress** – describe objectives and identify progress indicators
- **Preparing for the Future** – introduce small number (10-15) of bold strategies that provide greatest potential gain toward all goals
- **Moving Forward** – discuss transition to implementation and next steps

# Existing FTP Policy Element

**Goal: Safety and Security for Residents, Visitors, and Businesses**

*How Will We Get There?*

## What's New?

**Safer environment for pedestrians, bicyclists, and other vulnerable road users**

**Automated and connected passenger and freight vehicles**

**Cybersecurity for transportation**

### Emphasis Areas

- Combine design, engineering, enforcement, education, and emergency response strategies to reduce fatalities, injuries, and crashes involving:
  - » **Vulnerable and at-risk road users**, including pedestrians, bicyclists, motorcyclists, aging road users, and teenagers;
  - » **Unsafe, distracted, and impaired** driver and operator behavior; and
  - » **Lane-departure and intersection crashes.**
- Increase safety and security for **public transportation users.**
- Increase safety and security for **users with limited mobility.**
- Increase the safety and security of **freight movement** using all modes, including safe and secure truck parking and other logistics facilities, and separation of or reduced conflict between freight and passenger vehicles.
- Increase the efficiency and capacity of **customs, immigration, and other security processes** at airports, seaports, and other hubs to accommodate growth in demand including peak flows related to larger vehicles.
- Provide transportation connectivity to Florida's **military facilities** to support their national security and emergency response functions.

8

### Innovation

- Expand the use of **context-sensitive design** to improve safety for all customers, especially pedestrians and bicyclists.
- Continue to support research, testing, policy, and deployment activities to realize the anticipated safety benefits of **automated and connected vehicle** technologies.
- Use **technology, information, and operations** strategies for all modes to improve transportation security and emergency preparedness and response.
- Enhance transportation security systems to address **continuing, new, and emerging threats**, such as biosecurity, food security, invasive species, nuclear materials, and human trafficking.
- Provide more **diversity and redundancy** in the transportation system to allow alternatives for evacuation and response during emergencies.
- Reduce the vulnerability of transportation technologies to **hacking, cyberattacks, system failure**, and other disruptions.

### Collaboration

- Continue to develop and implement **safety and security improvement plans** for all modes of transportation at the state, regional, and local levels, such as Florida's Strategic Highway Safety Plan.
- Strengthen state and local **enforcement and prosecutorial capabilities** to ensure compliance with transportation safety and security laws and regulations.
- Develop and implement comprehensive **emergency response and recovery plans** involving state, regional, and local transportation, law enforcement, and emergency management agencies.
- Coordinate transportation and land use decisions to ensure that transportation corridor improvements intended to enhance emergency evacuation and response are not used to promote additional **development in high hazardous areas** or areas not planned for growth.
- Identify opportunities to work with federal, military and civil, state, and local partners and the private sector to integrate **new aviation and space technologies** while ensuring the safety and security of the airspace.

### Customers

- Educate all customers**, including visitors, about safety and security issues and improvement strategies for all modes.
- Enhance security regulations, processes, communications, information systems, and infrastructure to **improve customer service** and reduce customer wait time.

### Data and Processes

- Support accurate, timely, and complete **data collection and reporting** of safety and security incidents and exposure for all modes.
- Identify risk factors and develop targeted plans that consider the **benefits and costs** of potential safety and security improvements.

9

# Committee Guidance for Updated Policy Element

- Approach goals and objectives as an integrated set
- Focus on short list of bold strategies
- Emphasize strategies for next 5 years that could contribute to long-range vision and goals
- Address funding, workforce, other resources as core part of bold strategies, rather than as part of implementation

# Draft FTP Objectives

1. Eliminate transportation-related **fatalities and serious injuries**
2. Reduce the number **of crashes and other safety incidents** on the transportation system
3. Reduce the frequency and severity of transportation-related **public health, safety, and security risks**
4. Improve **emergency response and recovery** times
5. Maintain Florida's transportation assets in a **state of good repair** for all modes
6. Increase the **resilience** of infrastructure
7. Meet customer expectations for **infrastructure quality and service**
8. Improve transportation system **connectivity**
9. Increase **access** to jobs, education, health, and other services all residents
10. Increase the **efficiency and reliability** of people and freight trips
11. Increase alternatives to **single occupancy vehicles**
12. **Create jobs** in transportation-dependent industries
13. Reduce transportation's impact on **water, critical lands, and habitats**
14. Decrease transportation-related **air quality pollutants and greenhouse gas emissions**
15. Increase the **energy efficiency** of transportation

# Draft FTP Strategies - Update

1. Commit to Vision Zero as our top priority
2. Identify and mitigate risks to Florida's transportation system
3. Transform Florida's major transportation corridors and hubs
4. Strategically complete transportation systems and networks
5. Expand transportation infrastructure
6. Prioritize mobility for people and freight
7. Further access to opportunity for those who need it most
8. Integrate land use and transportation decisions
9. Develop transportation systems to protect and enhance air quality, water quality and quantity, critical lands, and habitats
10. Strategically align investments with needs
11. Provide sustainable and reliable transportation funding sources
12. Develop and retain skilled transportation workforce

# Review FTP Objectives and Draft Progress Indicators

# Review FTP Charge and 2021 Work Plan

# Steering Committee Charge for CY 2021

- Meet virtually 3-4 times (if possible, once in-person)
- Develop near-term action items for the FTP Implementation Element
- Maintain partnerships and collaborate on FTP implementation actions
- Distribute FTP Policy Element and SHSP through partner networks
- Support TransPlex and other outreach
- Provide input on SIS Policy Plan
- Support FDOT's task forces, environmental partners group, and other committees as needed

# Steering Committee Charge for CY 2022 & 2023

- Maintain partnerships and collaborate on FTP implementation actions
- Receive performance and progress updates
- Meet at least twice (2-3 hours each), once virtually and once in person
- Support TransPlex and other outreach/education
- Support FDOT's task forces, environmental partners group, and other committees, as needed

# Public Comment

Provide your name and county of  
residence

Please keep comments to no more than 3 minutes

Next Steps

# Upcoming Meetings and Outreach

Date	Group/Organization
Fridays in October	TransPlex web series
October 5	Launch of Virtual Room
October 5	Florida Public Transportation Association
October 13-29	Continuing Aviation System Plan meetings
October 14	Florida Rural Economic Development Association
October 15	AARP
October 15	Florida Defense Support Task Force
October 23	Florida League of Cities, Transportation Policy Committee
October 29	Florida Transportation Commission
Mid-November thru December	30-Public Comment period for Draft Policy Element

# Next Steps

- Steering Committee Meeting (web)
  - Potential Committee GoTo Meeting (October 2020)
    - Revise Policy Draft
  - November 2020
    - Final Policy Element
- Upcoming public and partner involvement activities
  - Targeted outreach through October 2020
  - Virtual Room launch October 5
  - Public comment period to start mid-November with a kickoff webinar

Thank You
