

Florida Transportation Plan (FTP-SIS) Resilience Subcommittee Structure

- Subcommittee of the FTP-SIS Steering Committee with a focus on transportation system resilience to environmental, community, and economic disruptors
- Includes “friends” of the subcommittee who are interested stakeholders/subject matter experts

FTP-SIS Resilience Subcommittee Charge

- Discuss themes, trends, and planning implications of transportation system resilience in Florida
- Identify policy-level objectives or strategies to address and/or maximize resilience to support the FTP goals and the SIS objectives
- Review and provide input, as requested, on related plans and processes, including those from FDOT and other partners
- Serve as transportation system resilience subject matter experts for the FTP-SIS Steering Committee and provide updates to the committee as needed
