

The **NEW** **STATEWIDE PLANNING TEAM**

WHO ARE WE?

Our Vision:

We provide transportation planning that makes Florida the best place to live, work, and play.

Our Mission:

We provide the foundation for programming and project delivery through innovative planning and effective outreach that will strategically advance the best transportation solutions at the right time.

HOW ARE WE ORGANIZED?

ALIGNED FOR THE FUTURE

The future of Florida transportation is being reshaped by monumental changes in technology, business models, and demographics. As we continue to build on the vision and goals of the Florida Transportation Plan, FDOT maintains our commitment to improving safety, infrastructure, and mobility while addressing the growing need to expand transportation choices. We envision a multimodal future where passengers and freight move seamlessly throughout Florida with greater efficiency than ever. Applying the concepts of agility and resiliency that we expect of our transportation infrastructure, FDOT Planning has aligned our efforts under the new **Statewide Planning Team** to be more adept at serving our customers and preparing FDOT for the future.
